

Pepper and Richard, please forward to your group.

Dear Guardians of Lick Creek,

Saturday my boys and I found lots of treasures at your garage sale. I'm especially excited about the Jack-in-the-Box for my car antenna. But, the real treasure I found at La Cabana was all of you.

I hope you realize what an tremendous impact you have made in our community and across the Hill Country these past two years. At times it may seem as though you will never see the fruits of your labor, when in reality we are all benefiting from your work right now in many ways.

If it wasn't for the work of the Guardians, I would never have tuned into Sweetwater and I would never have pulled together the Hill Country Alliance.

If it wasn't for the work of the Guardians, Travis County would not have new subdivision ordinances in the works right now.

If it wasn't for the work of the Guardians, Travis County wouldn't be working on their first ever conservation development ordinance.

If it wasn't for the work of the Guardians, the SW Travis County Growth Dialog may never have happened.

If it wasn't for the work of the Guardians, the LCRA wouldn't be revising their NPS ordinance which is set to go in affect early next year.

If it wasn't for the work of the Guardians, I doubt the Travis County bond package would include Reimers Ranch. Imagine 2500 acres preserved for ever in your back yard!!

If it wasn't for the work of the Guardians, Gerald Daugherty's love for pavement would still go unnoticed (unfortunately he hasn't changed but his constituents sure are keeping their eyes on him).

Because of the Guardians, people in Western Travis County are talking about a more responsible approach to growth.

Because of the Guardians, the people of Pedernales Canyon Trail have become more than neighbors. You have built a bond that your neighborhood will benefit from forever.

Because of the Guardians, I have met all of you and I am grateful for that.

Keep up the good work!
